- Apple AirPlay 2 & HomeKit

Big Screen, Bold Picture Quality, Small Space

Ultra Short Throw | Real 4K UHD | Up to 120-inch Screen Size
| 2500 ANSI Lumens Brightness

With the HU715Q's Ultra Short Throw, you can enjoy up to 120-inch cinematic screen with the just 12 inches. It offers you 4K UHD picture quality for an overwhelming movie experience. It also has a brightness of 2500 ANSI Lumens, it is available to be used even in moderately bright spaces.

Enhanced Convenience with Brightness Optimizer II* Auto Brightness | Adaptive Contrast

The Auto Brightness feature is introduced for the first time in the HU715Q. The Ambient Sensor at the bottom of the HU715Q automatically detects environmental luminance and optimizes your screen brightness accordingly. When the Ambient Sensor is on, the ambient light environment is automatically recognized by the sensor and the energy saving level is set. Thereby the screen's brightness is adjusted whether the surrounding environment is bright daylight, artificial lighting, or darkness. With the Adaptive Contrast, you can adjust the brightness of the light source whether the projected image is bright or dark. These functions enable the projector to clearly reproduce colors that match the original image even in various lighting conditions.

* The HU715Q does not support Iris Mode, which modifies the contrast ratio via iris adjustment.

More Immersive Cinematic Sound

2.2Ch 40W Sound with Quad Woofer | Bluetooth Surround Ready*

With 20W+20W stereo speakers with four woofers built in to the HU715Q, you can get cinema-quality sound to complete your viewing experience. With the deep bass and a full range of sound, it'll feel like you are really in the movie. For an even richer, more powerful movie sound experience, connect two additional wireless Bluetooth speakers to create a 4.2 channel sound system. By adding these two additional speakers to the HU715Q's powerful built-in speakers, you can further achieve your movie-watching experience. Turn your home into a total cinematic experience with the HU715Q's high-quality sound.

* Only LG Bluetooth speakers are guaranteed.
